FRIDAY, 4 October

Väre // M102

09:00-13:15

Students will work on exercises related to mapping surveillance within their own environments. The objective is to bring to the forefront technological infrastructures that are in the process of being naturalized. Should artists (and designers) be concerned about these? Why is it important? Why not?

Väre // Q203

13:15 – 17:00   **Student presentations of work**
